It is only when a man from the South, and a Democrat, does a lawless act, that the wrath of the editor is stirred within him, and he is ready to join the anti-slavery crusade of the North in acts of vengeance.

We soom these extra judicial suggestions. The law is ample protection to Congressmen, and quite sufficient to punish any wrongs that they suffer. If they choose to make blackguards of themselves, and pour ont their foul-mouthed abuse npon persons and States, let them take personally the responsibility, and not complain of consequences. Let judicial tribunals sit in judgment, and measure out the guilt by the rules that are wisely made for each a purpose. Party vindictiveness is utterly unfit to be invoked in such a case; and all just men in Congress onght to resist any appeal to it. In this case it is unnatural ln any national man to invoke party vengeance on the head of Brooks. The lawless act of his had at least the merit of reckless boldness. > New Books. THE OLD CORNER CUPBOARD. Truman Stafford Gincinnati.

This is eminently a heart-history. It is of that late years. It is a return to a healthful literature, considered morally and socially. It consists of a series of letters extending through a life-time, giving the history of that life and its intimates from the earliest aspirations of girlhood, through youth, womanhood and maturity, to old age. A spirit of piety, perhaps directed somewhat by New Church bellef, pervades the entire book. In style, it is well worthy of a high place among the better productions of the age. We have read it with pleasure and profit, and we are glad the publishers have given it to the world. We trust it may have a large sale, for it is emphatically a good book. It is almost a matter of supererogation at this late day to attempt to prove to any people the lmmense benefits that will and do result to comimmense benefits that will and do result to com-mercial cities from railroad connections; still we will attempt in this article to prove that, by the ailure of this road, the citizens of Louisville, a well as the citizens of Bardstown and Nelson

The time has passed when the mere advantages which nature has lavished upon the locality of a commercial city can sustain it. The animus of this progressive age has called art and science into regulation, and holds natural advantages as tril utaries and insufficient to carry on the commerc of this great country. Hence it is that Boston New York, Philadelphia, Baltimore, and Cincin John Thatcher—Hovey's Seedling, Newland's Alpine, Black Prince Strawberries.

And we do hope that after the amount of debt we, the oitizens of Nelson county, have incurred in order to build up this connection with the city of Louis-ville, they will not refuse us the small moiety of subscription which we ask of them. We are mere charity beggars at the hands of the citizens of Lonisville, for we have already voluntarily voted a tax of a hundred thousand dollars upon onreelves, and have privately subscribed nearly hundred thousand more to construct this brane road, which is to pour the commercial wealth of the rich county of Nelson into her lap. CORROBOBATION.—When the practice of inhaliation for the treatment of consumption was first established here, by Dr. Robert Hinner, of this city, and its success and availability strongly advocated in the leading journals, the assertion was made by Dr. Hinner, that "If every case of consumption in this city were placed under judicions treatment by inhalation, within two years the mortality from that disease would be diminished one-half." Opponents of the new principle of local application of vapor for the cure of disease of the lungs, appealed accordingly to the bills of mortality, predicting the most discouraging consequences from the wide prevalence which the new system had anddenly gained. After a careful examination of facts in connection with the sysexamination of facts in connection with the system, we ventured to give our voice with others, in favor of its fair trial. We are accordingly rejoiced to see the repeated assurances of every good result to the afflicted, from what appears to be the broadest basis of judging in the premises of the results. Dr. Huuter, in answering the appeal to the bills of mortality, regularly published in his journal, the Medical Specialist, points out a further decrease in the deaths from consumption in New York, reaching now to the exteut of thirtyone per cent. decrease for a comparison of the three months just past with the corresponding quarters of the previous year. For the three months ending March, 1854, the number of deaths from this disease are given a \$43; for March, 1855. sation of facts in connection with the sys from this disease are given a \$43; for March, 1855, the number was 766; and for March, 1856, the number is 580—a decrease of two hundred and sixty-three, or nearly one-third.

Wood's HAIR DYE .- This admirable article Wood's Hair Dyr.—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public, enjoys a better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a benefoial effect upon the growth and character of the hair, glving a silky and glossy texture to that which was formerly of a coarse and dry nature. It has, also, we understand, a tendency to preserve the youthful color and appearance of the hair, and destroying or counteracting the effects of age. With such recommendations in its favor, we hardly perceive how any lady or gentleman should be without so valuable an adjunct to their tollet. je2 dl&wl]

Our brief tatement of the affair on Friday gave the principal facts in the case. Mrs. Hankel has a wound on her head, which it is alleged was inflicted with a bottle thrown by the deceased. There was a singular circumstance detailed in the testimony, which may be mentioned without prejndicing the case. The deceased had a pack of cards in his hand, and was telling the fortune of Hartman, who was drink-ing with him. Spinal Affection Cured.

P CHILDS & CO.: THIS IS TO

certify that I have been afflicted with a Spinat Affection for nearly five years, which was caused by straining my back in August. 1842.

In the month of Jannary, 1843, I employed a physicau of the regular practice, and after the usual mode of bleedlar, and doing with calomel he left me not knowing the nature of the disease. But in January, 1844, I took a violent cold, which caused the mercury to settle in my back and legs, cansing the massles to contract and cramp me so hard that it produced two curves in the spinal column; thereby rendering my lower extremities entirely useloss, not being able to wak or stand, or move my feet or toos, and all but myself concurred in the opinion that I never would be any better. But in January, 1845, I commenced taking the Oriental or Sovereign Balm Pille, made by you, and found them truly a Sovereign Balm, and to the astonishment of all, before I had taken six boxes. I begun to move my toes, and in March, 1846, I began to walk; and now, at the date of this cartificate, I am able to walk three or form mites in a day. It is by the use of your Pills aloue that I culoy my present health and activity, and I can as fely recommend them to the afficied. If any donbt these statements, they can have positive proof by caffing at my residence in Elisburg, Jefferson Connty, N.Y.
